

Translational Cancer Seminars 2025

15 January	Dr Mireia Jordà, IGTP & Dr Jordi Reverter, HUGTiP Minimally invasive epigenetic biomarkers in thyroid cancer
29 January	Dr Barbara Rivera Polo, IDIBELL miRNAs and tumor development, when processing lacks precision
12 February	Dr Eduard Serra, IGTP & Dr Ignacio Blanco, HUGTiP Precision medicine for malignant peripheral nerve sheath tumors
26 February	Dr Tian Tian, VHIO Advancing Biliary Tract Cancer Research with Next-Generation Patient-Derived Models
3 March	Dr Bernat Gel, IGTP Dr Maria Saigi, ICO & Dr Gustavo Tapia, HUGTiP The Can Ruti Sarcoma Group: A Multidisciplinary Approach to Sarcoma Research
26 March	Dr Marta Domènech, ICO, HGT & Dr. Montserrat Sánchez Céspedes, IJC Minimally invasive epigenetic biomarkers in thyroid cancer
9 April	Dr Veronica Rodilla, IJC & Dr Gaston Zatta, Hospital Clínic Redefining the Triple-Negative Breast Cancer Subtype

7 May	Dr Pau Guillen, ICO-HUGTiP & Dr Jordi Barretina, IGTP Ovarian Cancer
4 June	Dr Carolina Armengol, IGTP & (Clinician TBC) Advancing Precision Medicine in Hepatoblastoma
18 June	Dr Andrea Vethencourt, ICO-IDIBELL Bellvitge Immunomodulatory effect of denosumab in early breast cancer
10 September	Dr Oskar Marin, IGTP & Dr Aram Boada, HUGTiP Unraveling the Biology of Melanoma Persister Cells
24 September	Dr Esther Ballana, IrsiCaixa & Dr Eudald Felip, ICO-HUGTiP Immunolog
22 October	Dr Robert Montal Roura, IRB Lleida Provisional title: Immuno-oncology in Gastric Cancer
19 November	Dr Paolo G Nuciforo, VHIO Colorectal Cancer
3 December	CARE Annual Meeting
17 December	Dr Jordi Codony, IGTP & Dr Rafael Rosell, IGTP Provisional Title: Lung Cancer

The Translational Cancer Seminars of the CARE Program at the IIS-IGTP aim to promote dialogue between groups from different disciplines to strengthen translational research and its impact on clinical practice.

Sessions pair basic and clinical researchers working on common problems in a specific type of cancer to increase problem solving. They aim to consolidate knowledge and synergies to speed the development of advances in prevention, diagnosis and treatment.

The CARE Program Translational Cancer Seminars are a space for groups from the IIS-IGTP to meet, share and learn together with clear scientific objectives in mind. Seminars include internal and external speakers who provide expert input on specific topics

This program may be subject to unavoidable changes. To consult the upcoming seminars please see the IGTP website [here](#).

To receive reminders for seminars or sign up for a certificate please use the [form](#).
